## **Partner with the Delhi Police Training Division!**

We really appreciate all of our sponsors and partners, enabling us to provide professional training for civilians, security officers and police officers in Delaware County and surrounding areas. Law Enforcement agencies from all over the Northeast attend classes in Delhi, over 170 from Federal, State and local departments.

Our web site provides a location so anyone can find out about our classes, when courses are scheduled, photos and information about our partners. We can increase your profits by referring everyone that comes to our classes, to your business! Students attending need lodging, food and other services and we give them your info.

We have hundreds of students each year coming to Delhi for training. Your information is provided to them, menu, hours, web site, and anything else you want us to hand out and we encourage them to support our partners. For only \$50.00 a year, we put you on the web site, Facebook page and spread the word about your establishment.

Please join us this year so we can continue to offer these training classes to the citizens of Delaware County and also to all the law enforcement officers that attend our classes. Help support the "Thin Blue Line" and make America a safer place.  
Thank you!
